Your state licensing capacity may not align with the age groups above. Still, please indicate current licensed capacity and proposed licensed capacity using the age ranges in the table. The table will be used to determine if your childcare site plans to increase capacity and/or enrollment for the infant/toddler age group.

Note:

The equity criteria and eligibility for the program describe the requirement to increase infant/toddler capacity and enrollment as follows:  
 Provider demonstrates plans to increase in capacity or enrollment of infant and toddler slots (i.e., children under 3 years).

The review of the applications will focus on increases in capacity and enrollment of children under 36 months. It is also important to note that the second table should reflect any and all increases in capacity and enrollment in infant/toddler and other age categories if the grant is awarded.
